

Getting Started Shopping at CVS

Compliments of Lisa Braverman of [Picadil Children's Clothing](#)

To get you started saving money at CVS, I have put together a few orders that will start you on your way to earning ECB (Extra Care Bucks) without spending a lot. If you don't already have an Extra Care Card, be sure to sign up for one when you get to the store.

Trip 1.

- Purchase Breeze 2 Diabetes monitor – Price: \$9.99 ECB earned: \$9.99
- Coupon for up to \$30 off one monitor in November 2007 news paper
- Coupon for \$50 off in the CVS booklet Managing and Preventing Diabetes
- If you can't find these coupons they can be "purchased" at [CouponsByDede](#)

Purchase 1 will be free, or close to it and you will have \$9.99 in ECB to spend.

Trip 2.

- Purchase 20 SoyJoy Bars - \$20 ECB earned \$20
- \$4 off \$20 [CVS coupon](#)
- Coupon \$3 off 10 bars: January 6, 2008 news paper
- Coupon 1 free bar: January 6, 2008 news paper
- Coupon \$1 off 4 when you sign up at www.SoyJoy.com (this coupon can be printed twice)

In this purchase, be sure to hand the cashier the \$4 off \$20 CVS coupon first, then the remaining coupons.

Your total will be \$10. Use the \$9.99 ECB that you earned in Trip 1 and this order is \$.01. You now have \$20 in ECB without spending very much money! These two "trips" can be done the same day in separate transactions. Your Extra Care Bucks will be at the bottom of your receipt.
